PROFILE

A passionate and skilled web developer with strong hands-on experience in HTML5, CSS3, and JavaScript. Adept at creating responsive and visually appealing web interfaces, I excel in designing and developing user-centric websites with clean, efficient code. My expertise lies in transforming design concepts into interactive and dynamic web pages, ensuring cross-browser compatibility, and optimizing performance for a seamless user experience. I am dedicated to continuous learning and staying updated with the latest web technologies to deliver innovative and effective solutions.

PROJECTS

Spotify Clone
Developed a responsive and visually appealing Spotify Clone using HTML5 and CSS3. This project showcases my ability to recreate a popular music streaming platform with a focus on clean design, user-friendly navigation, and smooth animations. Key features include a modern, intuitive interface that adapts seamlessly across various devices and screen sizes. The project demonstrates proficiency in HTML5 for structuring content and advanced CSS3 techniques for styling, animations, and layout management, ensuring an engaging user experience**.**

CSS3-Minor Project
Developed a responsive side navbar that opens upon clicking the hamburger menu. This project was built using pure CSS3, showcasing my strong grasp of CSS3 fundamentals.

ACHIEVMENTS

**First year departmental toper in college
